PURPOSE OF REPORT

To seek Council support to initiate advertising of Draft Local Planning Policy 6 – Consultation on Development and Draft Local Planning Policy 8 – Construction Environmental Management Plans.

SUMMARY AND KEY ISSUES

- Local Planning Policy 6 – Neighbour Consultation on Development (LPP6) and Local Planning Policy 8 – Construction Management Plans (LPP8) were adopted by Council on 24 November 2020 and are due for review.
- The review of LPP6 has been prioritised in anticipation of imminent legislated changes to officer delegation and its implications on the Shire's Schedule of Fees and Charges for 2024/25.
- Holistic revisions to LPP8 are necessary as the current local policy is no longer fit for purpose.
- The Information Sheet – Residential Development (Information Sheet) will be updated pending adoption of revisions to the local policies.
- The Shire may adopt without changes, adopt with amendments, or rescind LPP6 or LPP8 without the need for referral to or the approval of the Western Australian Planning Commission (WAPC).

BACKGROUND

LPP6 and LPP8 were advertised on 1 October 2020 with no submissions received. Both were subsequently adopted by Council on 24 November 2020. No further amendments or revisions have been made.

The recent adoption of amendments to Local Planning Policy 5 – Plot Ratio and Local Planning Policy 12 – Residential Fences has established a preferred structure for the suite of local policies and the requirement to articulate the need and nexus for each policy.

The Information Sheet – Residential Development has captured the nuances of the local planning policy framework and reflected how planning officers are interpreting the framework. It has additionally identified current best practice dust and traffic management controls that are proposed to be strengthened through the adoption of amendments to LPP8. The information sheet is silent on consultation processes.

LPP6 is no longer fit for purpose. There is an opportunity for this local policy to respond to the state government's planning reforms, and to recognise that alternative means of notification may be appropriate. LPP6 is also silent on any obligations on the proponent including erecting signage and publishing public notices and contributing to the cost of preparing and distributing notification letters. It is accepted practice that proponents undertake consultative actions at their own cost. The Shire's fees and charges schedule prescribes the recovery of costs associated with more than ten (10) notification letters to be recovered.

LPP8 has not been embraced by proponents by virtue of the ongoing need to provide clarification on Shire expectations, and the documentation received often being generic and/or lacking detail. LPP8 is also fundamentally flawed in that it prescribes that documentation is to be lodged prior to the issuance of a building permit. Unless associated with preliminary demolition works, it is best practice for construction environmental management plans to support a development application.

In simple terms, too much information is currently prescribed in an inflexible manner. LPP8 is far too onerous for minor developments that in many cases can be otherwise controlled through standard building permit or development approval conditions. Conversely, emergency muster points are required to be identified on a site plan and control measures provided to evidence risk minimisation for contractors undertaking day to day activities. These are matters addressed under Work Health Safety legislation administered by WorkSafe and for which local government endorsement brings with it inherent risk.

The proposed draft revisions to LPP6 and LPP8 are not considered minor for the purposes of negating the need for advertising.

CONSULTATION

The draft policies are required under Schedule 2, Part 2, Division 3, Clause 4(2) of the Deemed Provisions to be advertised for a period not less than twenty-one (21) days.

A further officer report will be prepared having regard to any submission(s) received during the advertising period.

The Department of Planning, Lands and Heritage (DPLH) has previously confirmed that the WAPC is not required to approve amendments to LPP's that do not amend or replace the R-Codes. Notwithstanding this, it is considered prudent to inform the DPLH of the revised LPP's once adopted.

STRATEGIC IMPLICATIONS

There are no strategic implications evident at this time.

POLICY IMPLICATIONS

The proposed revisions to LPP6 and LPP8 do not directly or adversely impact on other local policies.

FINANCIAL IMPLICATIONS

There are no financial implications evident at this time.

ENVIRONMENTAL IMPLICATIONS

There are no environmental implications at this time.

SOCIAL IMPLICATIONS

There are no social implications at this time.

OFFICER COMMENT

Local planning policies are important because they articulate local values and link these to how the Shire will plan and make decisions for the benefit of Peppermint Grove as a place and community. Local policies also serve the function of articulating local planning scheme provisions and guide the application of Shire discretion.

In the hierarchy of planning controls, the local planning scheme and state planning policies prevail with the exception that a local planning policy may vary a deemed-to-comply requirement contained in the R-Codes (state planning policy 7.3). Neither LPP6 or LPP8 vary a deemed-to-comply requirement of the R-Codes.

Local policies are not a law or a statute and are not to be applied inflexibly. For this reason local planning policies cannot allow or disallow. They may encourage and discourage siting and design and establish expectations in regard to the provision of supporting documentation and site management practices.

The regular review of policy is a standard urban planning practice. Local Planning Policies (LPPs) are a key part of the Shire's local planning policy framework (i.e. scheme, policy and other strategic work) that augment the local planning scheme and guide the exercise of Council discretion in development and building matters.

Key Revisions to Draft Local Planning Policy 6 – Consultation on Development

- Local policy title changed to reflect that consultation may extend to beyond neighbouring properties.
- Local policy restructured to align with recently adopted revisions to the plot ratio and residential fencing policies.
- Generic introduction replaced by a Purpose and a Planning Objective section to align with recently revised local policies and articulate the broadened policy objectives.
- Clarifies that the owner/occupier is to be notified. In the case of vacant land, notifications will continue to be provided to the landowner.
- Articulates the planning objectives of the local policy to now provide guidance on the issuance of courtesy notifications as opposed to advertising letters, what information will be made available for public viewing, and consultation requirements for significant applications.
- The period between the Christmas and New Year public holidays to not count towards the specified advertising period.
- Refers to the ability to recover costs associated with distributing advertising letters and introduces obligations for proponents to erect signage and publish public notices at their own cost.
- Complex and community sensitive development application proposals defined and subject to broader consultation.

Key Revisions to Draft Local Planning Policy 8 – Construction Environmental Management Plans

- Local policy title changed to reflect the scope of documentation sought such as sediment control measures.
- Local policy restructured to align with recently adopted revisions to the plot ratio and residential fencing policies.
- Generic introduction replaced by a Purpose and a Planning Objective section to align with recently revised local policies and articulate the broadened policy objectives.
- Documentation to be submitted and assessed at the earliest opportunity allowing affected parties to understand the proposed management measures. Greater assurance can then be evidenced that the development will not adversely affect the amenity of the area, affected parties are able to provide comment, and the issuance of building permits are not delayed.
- Requires proponents to complete a Site Risk Assessment Matrix to determine the risk classification of the activity and inform whether the works are exempt from the requirement to submit a CEMP.
- Introduction of baseline requirements for mitigation measures, contingencies and monitoring actions for dust and sediment control outlined in *A Guideline for Managing the Impacts of Dust and Associated Contaminants from Land Development Sites, Contaminated Sites Remediation and Other Related Activities*.

- Stand-alone traffic management plans required for activities that are likely to cause significant disruption to motorists or pedestrians.
- Off-site noise monitoring and dilapidation reporting required for significant works.
- Enforcement and penalties section corrected and updated to reference the ability to issue a Planning Infringement Notice.

Revisions to both LPP6 and LPP8 has been identified as a priority and forms part of a broader review of the Shire's local planning policy framework.

Following assessment of any submission(s) received during the twenty-one (21) day advertising period, further revisions may be recommended as part of the next report to Council to decide whether or not to adopt the LPP's.

FURTHER INFORMATION

Minor amendments have been made to the attached Draft Local Planning Policy 6 - Consultation on Development and Draft Local Planning Policy 8 – Construction Environmental Management Plans following the Agenda Briefing Forum. The amendments were predominantly grammatical and included the purpose of LPP6 no longer referencing to influence design outcomes, and the planning objective of LPP8 now referencing the retention of vegetation. The amendments did not change the intent of the local policies.
