NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY FOR THE PERIOD ENDED 30 APRIL 2024

1 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PREPARATION

This prescribed financial report has been prepared in accordance with the Local Government Act 1995 and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the Local Government Act 1995 read with the Local Government (Financial Management) Regulations 1996, prescribe that the financial report be prepared in accordance with the Local Government Act 1995 and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The Local Government (Financial Management) Regulations 1996 specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Local Government (Financial Management) Regulations 1996, regulation 34 prescribes contents of the financial report. Supporting information does not form part of the financial report.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements

Judgements and estimates

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The balances, transactions and disclosures impacted by accounting estimates are as follows:

- · estimated fair value of certain financial assets
- · impairment of financial assets
- estimation of fair values of land and buildings, infrastructure and investment property
- · estimation uncertainties made in relation to lease accounting
- estimated useful life of intangible assets

SIGNIFICANT ACCOUNTING POLICES

Significant accounting policies utilised in the preparation of these statements are as described within the 2023-24 Annual Budget. Please refer to the adopted budget document for details of these policies.

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

The local government classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at amortised cost held with registered financial institutions are listed in this note other financial assets at amortised cost are provided in Note 4 - Other assets,

SIGNIFICANT ACCOUNTING POLICIES

Each class of fixed assets within either plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

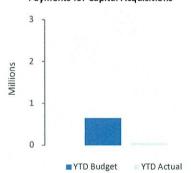

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with Financial Management Regulation 17A (5). These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Initial recognition and measurement for assets held at cost Plant and equipment including furniture and equipment is recognised at cost on acquisition in accordance with *Financial Management Regulation 17A*. Where acquired at no cost the asset is initially recognise at fair value. Assets held at cost are depreciated and assessed for impairment annually.

Initial recognition and measurement between mandatory revaluation dates for assets held at fair value In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

KEYINFORMATION

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectable amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

KEY INFORMATION

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the period that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

All debenture repayments were financed by general purpose revenue.

KEYINFORMATION

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature. Non-current borrowings fair values are based on discounted cash flows using a current borrowing rate.

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee Related Provisions

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as employee related provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

SIGNIFICANT ACCOUNTING POLICIES

Investments in associates

An associate is an entity over which the Shire has the power to participate in the financial and operating policy decisions of the investee but not control or joint control of those policies.

Investments in associates are accounted for using the equity method. The equity method of accounting, is whereby the investment is initially recognised at cost and adjusted thereafter for the post-acquisition change in the Shire's share of net assets of the associate. In addition, the Shire's share of the profit or loss of the associate is included in the Shire's profit or loss.

INTRODUCTION

This document is a register of the delegations, authorisations and appointments of the Shire of Peppermint Grove. Some legislation confers powers on local governments to allow Council to delegate power to a committee of the local government, the local CEO or in limited circumstances other employees.

The purpose of delegated authority is to assist with improving the time taken to make decisions within the constraints allowed by the relevant legislation. This is consistent with the Shire's commitment to customer service. The Register of Delegation of Authority details the related document(s) where the power to delegate is derived from, including legislation and policies of the Council.

Section 5.42 of the Local Government Act 1995 provides for delegation:

- (1) A local government may delegate to the CEO the exercise of any of its powers or the discharge of any of its duties under —
- (a) this Act other than those referred to in section 5.43; or
- (b) the Planning and Development Act 2005 section 214(2), (3) or (5).
- (2) A delegation under this section is to be in writing and may be general or as otherwise provided in the instrument of delegation.

All delegations made by the Council must be by absolute majority decision. The Act specifies in Section 5.43 when a local government cannot delegate:

A local government cannot delegate to a CEO any of the following powers or duties — (a) any power or duty that requires a decision of an absolute majority or a 75% majority of the local government;

- (b) accepting a tender which exceeds an amount determined by the local government for the purpose of this paragraph;
- (c) appointing an auditor;
- (d) acquiring or disposing of any property valued at an amount exceeding an amount determined by the local government for the purpose of this paragraph;

- (e) any of the local government's powers under section 5.98, 5.98A, 5.99, 5.99A or 5.100;
- (f) borrowing money on behalf of the local government;
- (g) hearing or determining an objection of a kind referred to in section 9.5;
- (ha) the power under section 9.49A(4) to authorise a person to sign documents on behalf of the local government;
- (h) any power or duty that requires the approval of the Minister or the Governor; (i) such other powers or duties as may be prescribed.

The Act allows for the CEO to delegate any of his/her powers to another employee, which must be done in writing. The Act also allows for the CEO to place conditions on any delegations if he/she desires.

The Register of Delegation of Authority, being this manual, relevant to the CEO is required to be kept and reviewed at least once every financial year.

If a person is exercising a power or duty that they have been delegated, the Act requires them to keep necessary records to the exercise of the power or discharge of the duty. The written record is to contain:

- how the person exercised the power or discharged the duty;
- · when the person exercised the power or discharged the duty; and
- the persons or classes of persons, other than council or committee members or employees
 of the local government, directly affected by the exercise of the power or the discharge of
 the duty.

The aim of this delegated authority manual is to assist with improving the time taken to make decisions within the constraints allowed by the relevant legislation.

INTRO DUCTI ON

This document is a register of the delegations, authorisations and appointments of the Shire of Peppermint Grove. Some legislation confers powers on local governments to allow Council to delegate power to a committee of the local government, the local CEO or in limited circumstances other employees.

The purpose of delegated authority is to assist with improving the time taken to make decisions within the constraints allowed by the relevant legislation. This is consistent with the Shire's commitment to customer service. The Register of Delegation of Authority details the related document(s) where the power to delegate is derived from, including legislation and policies of the Council.

Section 5.42 of the Local Government Act 1995 provides for delegation:

- (1) A local government may delegate to the CEO the exercise of any of its powers or the discharge of any of its duties under —
- (a) this Act other than those referred to in section 5.43; or
- (b) the Planning and Development Act 2005 section 214(2), (3) or (5).
- (2) A delegation under this section is to be in writing and may be general or as otherwise provided in the instrument of delegation.

All delegations made by the Council must be by absolute majority decision. The Act specifies in Section 5.43 when a local government cannot delegate:

A local government cannot delegate to a CEO any of the following powers or duties — (a) any power or duty that requires a decision of an absolute majority or a 75% majority of the local government;

- (b) accepting a tender which exceeds an amount determined by the local government for the purpose of this paragraph;
- (c) appointing an auditor;
- (d) acquiring or disposing of any property valued at an amount exceeding an amount determined by the local government for the purpose of this paragraph;

Formatted: Tab stops: 8.24 cm, Centered

Formatted: Header, Line spacing: single

(e) any of the local government's powers under section 5.98, 5.98A, 5.99, 5.99A or 5.100; (f) borrowing money on behalf of the local government; (g) hearing or determining an objection of a kind referred to in section 9.5; (ha) the power under section 9.49A(4) to authorise a person to sign documents on behalf of the local government; (h) any power or duty that requires the approval of the Minister or the Governor; (i) such other powers or duties as may be prescribed.

The Act allows for the CEO to delegate any of his/her powers to another employee, which must be done in writing. The Act also allows for the CEO to place conditions on any delegations if he/she desires.

The Register of Delegation of Authority, being this manual, relevant to the CEO is required to be kept and reviewed at least once every financial year.

If a person is exercising a power or duty that they have been delegated, the Act requires them to keep necessary records to the exercise of the power or discharge of the duty. The written record is to contain:

- · how the person exercised the power or discharged the duty;
- when the person exercised the power or discharged the duty; and
- the persons or classes of persons, other than council or committee members or employees
 of the local government, directly affected by the exercise of the power or the discharge of
 the duty.

The aim of this delegated authority manual is to assist with improving the time taken to make decisions within the constraints allowed by the relevant legislation.
